STATE SUFFRAGE ASSOCIATION TO CONVENE

Most Important Meeting for West Virginia Women to be Held at Huntington November 16 to 18

All women are invited to attend, whether delegates or not. All desiring free entertainment will write to Mrs. Eugene Warren giving time of arrival. Large plans are being made for this annual convention, the most important of any that has ever been held and a splendid program is being provided. There will be speakers of national prominence. Many distinguished West Virginians will address the convention. It is expected to be one of the largest and most enthusiastic gatherings of women ever held in the State.

For further information write to Mrs. J. Gale Ebert, President West Virginia Equal Suffrage Association, Parkersburg.

"DOLLAR DAY" TO BE IMPORTANT SUFFRAGE DATE

Nov. 27th has been chosen as the day for suffrage "Dollar Day." The indifference and the little opposition encountered have not in any way dampened the spirit of the ardent suffragists, neither has the lack of funds to any great extent, yet the great need of dollars to properly advance the campaign has been a question of much concern. Hence to meet the need "dollar day" has been planned. One-half of every dollar contributed on this day will be kept in local treasuries for local and county work and the remaining one-half will go to the State treasury. Every one in sympathy with "votes for women" should on this day contribute one dollar.

If by any chance this should fall into your hands after the date set for "Dollar Day" if you believe in Suffrage for Women send your dollar or dollars. A large sum of money will be needed for campaign expenses. What for? To pay the expenses of organizers who must be sent into all unorganized territory, to pay for this plate matter that is sent to newspapers all over the State, to pay for press bulletins that must be sent out from time to time, for literature, buttons, banners, etc., that must be bought in large quantities and held until sent for by local organizations, postage, which is no small item, and dozens of things that anyone familiar with a campaign knows takes money. From time to time noted suffrage speakers must be brought. Many give their services for nothing, but expenses must be paid. If you believe in suffrage and want it to win in this State help to your utmost financial ability. No better evidence of the earnestness with which the men and women are working to assure the success of this campaign can be found than in the personal sacrifices that thousands of them must make to help in this great financial need. Give a dollar if you can, give many dollars if you can, and if you cannot give a dollar give as much as you can. Every man and woman in the State who believes that women should have the vote is urged to contribute.

Contributions may be sent to various county headquarters, to Miss Carrie Zane, Treasurer, Wheeling, W. Va., or Mrs. J. Gale Ebert, President, Parkersburg, W. Va., State headquarters.

WHY THE FARMER'S WIFE SHOULD VOTE

Her Ballot Would Help Secure Better Legislation for the Rural Districts

IT WOULD CURB VICE, TOO

White Slavers Depend Upon Rural Regions to Supply the Majority of Their Victims

The farmer's wife should have a vote because it is just and right. She is required to pay taxes and obey laws.

She should have a vote for the welfare of her husband and family. Monopolies, corporations, manufacturers and capitalists control the votes of their employes to secure legislative privileges. The farmers' wives and daughters should have direct influence in order to secure just legislation for the farmers.

She should have a vote on the construction of roads over which she must travel.

She should have a vote on the management and policy of the schools in which her children are educated, and on the use of the school building as a neighborhood center for improvement.

She should have a vote for national representatives who will favor agricultural development more and war measures less. Congress spends 70 per cent of the government's income for wars, past and future, and but 12 per cent for agricultural improvement, and devises every means to tempt the sons of country mothers into the army and navy. The price of one battleship would construct 666 miles of road, and pave it with the best brick.

She should have a vote to protect her daughter from the white-slave dealer, and to raise the age of consent.

She should have a vote to enact legislation for the protection, improvement and health of her children equal to that enacted for live-stock.

She should vote so the laws of our country may give equal pay for equal work; that the wife may receive a just income for her share of the work, and may manage those holdings possessed in her own name.

One-seventh of our population are foreign born; the very large majority of these are men. They swell the vote of the cities, until on many important questions the rural community is disenfranchised. Votes for farmers' wives would be a means of cleaning up the cities, so that country boys might visit them without being debauched, and country girls might not be lured into a life of torture and an early death. Sixty thousand girls perish through the traffic in women each year, a large number of them innocent country girls.

IS WOMAN SUFFRAGE CONTAGIOUS?

It must be for it has spread from State to State until the west is solid, 1,710,029 square miles of the United States is governed by equal suffrage. This is more than 56.4 per cent of the total area of the country.

Abraham Lincoln declared, "This Government cannot exist one-half slave and one-half free."

Neither can the country continue to be governed one-half by half the people, the other half by all the people.

FARMER CONGRESS GOES ON RECORD

National Organization Representing Million Members Adopts Suffrage Resolutions

Five hundred delegates, representing a million members of the Farmers' National Congress, in attendance at the thirty-fifth annual convention in Omaha, Neb., last week went on record for equal suffrage.

The suffrage resolution was adopted unanimously, according to a telegram to the Woman's Journal from Mrs. Draper Smith, president of the Nebraska Woman Suffrage Association, and Mrs. H. C. Sumner, chairman for Douglas county. The resolution read as follows:

"Resolved, That the Congress hereby expresses its belief that the fundamental principles of human equality, representative government as well as social and economic justice, demand the enfranchisement of women."

"Jess Willard favors equal suffrage. Jess ought to be able to convince the average anti," remarks the Indiana Times.

GOV. CARLSON URGES VOTES FOR PENN MOTHERS

Colorado Executive, Speaking at Kane, Says Women of His State Have Made Good as Voters,

DO NOT NEGLECT THE HOME

Nor Have They Lost Their Womanly Charm By Voting Against Its Enemies

Governor George A. Carlson of Colorado, a State where women have voted for the past twenty-two years, made a strong appeal to the men of Pennsylvania to vote for woman suffrage this November in an address he delivered on July 13 last, at the Swedish Lutheran Church at Kane, Pa. He said:

"Don't let people tell you that the mothers of your children will prove incapable, or become coarse, cold or

neglectful in the home if given the ballot; those who for nearly a quarter of a century have actually observed the enfranchised woman at work know that she can sense the enemy of the home more quickly and will fight him with more telling effect than the husband, and while preserving all her natural feminine charm and sweetness, she will become even more devoted to the man who has allowed her ampler means and fuller power for the protection of their common fireside.

"The State in safeguarding and preserving the health and morals of the young is but doing a mother's work."

"We need the blending of the mother heart and the masculine judgment and will to sustain and guard our homes."

COLORADO'S PROCLAMATION TO THE NATION

After twenty-two years of experience with woman suffrage in operation the Colorado Senate passed, unanimously, the following resolution on January 22d, 1915:

WHEREAS, The question of woman suffrage has become an important issue in many States of the Union, and

WHEREAS, Woman suffrage was made a part of the organic law of the State of Colorado more than twenty-two years ago, and

WHEREAS, The operation and effect of woman suffrage in this State is being made the subject of misrepresentation in other States where the question is an issue.

THEREFORE, We deem it to be our duty to say that experience has demonstrated that woman suffrage is not only a just recognition of the rights of all before the law, but has proven in all respects materially helpful to good government among the people, and to a noticeable degree has incited a higher respect for the majesty and supremacy of the law.

If the Women Should Stay at Home Who Then Would do the Work?

DO YOU KNOW?

That there are in the United States about 8,000,000 women in gainful occupations outside the home who need the protection of the ballot to regulate the conditions under which they must labor; and that the efforts of working women to regulate these conditions without the ballot have been practically unavailing?

Mr. Gloom Reflects.
"I can see only one advantage in being tattooed," says J. Fuller Gloom. "If I were troubled with insomnia I might enjoy sitting up and looking at the pictures."—Kansas City Star.

Cure for Rusty Needle.
Rusty needles can be remedied by placing the needles in coal oil for a few minutes.

Took His Mind Off.
"He was a very good man, my husband, though he would often say, 'Don't make me go to church too much, Hattie; it takes my mind off religion.'"—American Magazine.

As to Suspicion.
"Suspicion," said Uncle Eben, "mighty often consists in realizin' what you'd be tempted to do if you had de other feller's chance."

Wow! Cold as the Dickens!

Why do you put up with such a nuisance? You don't have to if you furnish your house with a

Cole's Original Hot Blast

You build only one fire each winter. It is never out from fall till spring.

You get up and dress in rooms warmed with fuel put in the night before. This is not possible with other stoves. Burns anything—soft coal, hard coal or wood.

Come in and see this great fire keeper and fuel saver.

"Cole's Hot Blast makes your coal pile last."

To avoid imitations look for Cole's on feed down.

Your Thanksgiving Turkeys
Ship Them To
Frank Hellerick & Co. Philadelphia

Why should you give the middle man \$2 to \$3 on each turkey when you can ship to us direct and get much better prices and save this money you are now losing for your own pockets. We have every reason to believe that the Thanksgiving Market will be better than it has for years if the weather is favorable. The Country is in the very best financial condition. The industrial plants are all running on full time and paying higher wages than for years, and the turkey crop is light this season; therefore we will have a greater demand than we can supply.

Our stores will be thronged with the very best class of buyers throughout the city. Why do they come to us? Because we handle the best Poultry and have been serving the people for 35 years, and the buyers have learned to look and depend on Hellerick & Company to supply them for their trade.

We are reliable and prompt. Why take chances? Send us your fat ones for Thanksgiving and keep the others for a later market. Start your shipment the 20th for the Thanksgiving Market. Tell your friends and neighbors about us. Write today for special instructions and prices.

YOURS TO SERVE,

Frank Hellerick & Co.

349 New market St. PHILADELPHIA, PA.

Elusive Hubby.
